

# *Madrasa Tajweedul Quran*

## Level 6 - Arabic

### Books to be covered:

1. Step 1 revision of grammar rules.
2. Step 2 revision of grammar rules.
3. Step 3. *New book for this year.*

Refer to the L.T.P. for the revision timetable of the above two Arabic books.

NOTE: Level 6 of S2 have not covered Arabic Step 2 last year. This needs to be covered as a new book.

### Arabic writing practice:

The teacher needs to focus on this and set work accordingly. Work can be given in class, and the teacher can check this work in class time and focus both on writing and grammar.

### Arabic:

1. In Arabic, our focus is Classical Arabic. Hence all material relating to Arabic will be based on this.
2. Two complete lessons a week (preferably mid-week) need to be devoted for Arabic.
3. In addition to the above, teachers must use a few minutes (on an informal basis) each day to “brainstorm the class” with questions on Arabic.
4. A lot of emphasis needs to be given this year on grammar and etymology.
5. Teachers will be required to prepare additional handouts giving examples etc of concepts and grammar rules.
6. Wherever possible, In Duas, Surats etc teachers must point out the parts which children can relate to. This may be very minimal and / or limited in Level 5; however it will be a very positive experience for the children.
